

PC / Network Technician Certification Prep Program (A+ and MCTS – Windows 7) - NEW

Coastal Carolina Community College's Continuing Education Division is excited to announce our new PC / Network Technician Certification Prep Program (A+ / MCTS Windows 7) – HYBRID. Our new PC/Network Technician Program involves a combination of blended (online and seated) learning instruction specifically designed to prepare students for the CompTIA A+ and Microsoft Certified Technology Specialist (MCTS) Windows 7 certification exams.

Here's the detailed information on the training program:

PC / Network Technician Certification Prep Program (A+ and MCTS – Windows 7)

February 27 - June 22, 2012

Monday, Wednesday and Friday

5:30 pm – 8:30 pm

Skills building room 110 and ONLINE

138 hours of instruction

\$175.25 per student

LabSim Materials required

A+ Essential and A+ Practical LabSim materials: \$125

MCTS Windows 7 LabSim material: \$89

The program covers all the material necessary to pass the CompTIA A+ Certification exams and the Microsoft MCTS – Windows 7 exam. This is an intensive hands-on program with certified instructors designed to prepare candidates to take the CompTIA A+ Required exams: CompTIA A+ Essentials (220-701), CompTIA A+ Practical Application (220-702) and the Microsoft MCTS: Windows 7 (70-680) certification exam.

Please call our Continuing Education office at (910) 938-6294 to register for the upcoming **PC Network Technician Certification Prep Program (A+ and MCTS – Windows 7)**. **Seats are still available.** This is a great (and affordable) training course to prepare for the A+ and MCTS - Windows 7 exams.
