Take the **CAREER READINESS CERTIFICATION (CRC)**

The Career Readiness Certification (CRC) is based upon WorkKeys, a nationally recognized skills assessment tool developed by ACT Inc. It is a comprehensive employability skills assessment tool designed to help employers and individuals develop better workplace skills.

For job seekers, the CRC serves as a portable credential that can be more meaningful to employers than a high school degree or a resume citing experience in a different job setting.

To earn a Career Readiness Certificate, individuals are tested in Workplace Documents, Graphic Literacy, and Applied Math. WorkKeys testing is offered each month at Coastal Carolina Community College.
