Regalia

The wearing of academic regalia is one of the oldest traditions associated with collegiate education. Originating in the Middle Ages, this tradition has changed very little in symbolism through the years.

Gowns are usually black, and their design and sleeve embellishment denote the rank and status of the wearer. Bachelor's gowns have pointed sleeves; master's gowns, oblong sleeves; doctoral gowns, bell-shaped sleeves with three velvet bars.

Additionally, persons holding bachelor's, master's, and doctoral degrees may choose to adorn their gowns with hoods. Hoods are lined with silk, and their colors identify the institution granting the degree. The velvet border color indicates the field in which the degree was earned.

The standard academic cap is known as a mortarboard, which may be worn with each type of gown. Tassels on the caps indicate the degree earned; black for bachelor's and master's degrees and gold for doctoral degrees.
