COASTAL CAROLINA  
COMMUNITY COLLEGE

# IMPORTANT CONTINUING EDUCATION INFORMATION

To register, complete a registration form (one per class) and pay the registration fee. Students can register in person at the front office in the (CE) Building, by e-mail or by fax. From our homepage, select Continuing Education. There you will find a link for the Registration Form. Print and complete both pages and submit them via fax (910.347.6174) or e-mail ([ConEd@coastalcarolina.edu](mailto:ConEd@coastalcarolina.edu)). After submitting the form(s), please call (910.938.6294) to complete payment over the phone, before close-of-business on the same day. Students should register as early as possible, as many of our classes fill up quickly.

A Minor Application Form is required for individuals aged 16 and 17 enrolling in the College and Career Readiness (CCR) Program for high school completion. Visit the CCR office in Room 208 of the CE Building, call (910.938.6259), e-mail ([collegeandcareerreadiness@coastalcarolina.edu](mailto:collegeandcareerreadiness@coastalcarolina.edu)), or visit (select Continuing Education, CCR Program) to obtain further information about this form.

Course fees are set by the state and are based on the number of class hours: 1–24 hours: \$70; 25–50 hours: \$125; 51+ hours: \$180. (Exceptions include Small Business Center seminars and self-support classes, for which fees vary.) Course fees may be paid in person at the front office in the CE Building. Accepted payment methods include cash, check (payable to “Coastal Carolina Community College” or “CCCC”), money order, or credit/debit card (MasterCard, Visa, American Express, and Discover are accepted). Credit card payments may also be made by phone after the registration form(s) have been received in the office. Textbooks are not included in the registration fee (see below).

**ADDITIONAL FEES:** The following fees are in addition to the registration fee and are collected at the time of enrollment: A Supply Fee of \$10 is included for applicable classes over 96 hours. An OSHA Card Fee of \$8 is included for applicable classes. A non-refundable Student Accident Insurance Fee of \$1.00 is included when applicable. A Liability Insurance Fee of \$16 is included for students who will be providing services to the public (health-related courses, Massage Therapy, Manicurist, etc.).

Make checks or money orders payable to “Coastal Carolina Community College” or “CCCC”. Postdated checks are not accepted. There is a \$25.00 fee for returned checks. Thank you for including your driver’s license number or student ID number on checks. Credit card payments can only be accepted from the person whose name appears on the card.

Please call the College Store at (910.938.6295), or visit them in the Student Center for textbook costs and information. Please note that the College Store has a 10-day return policy. It is strongly recommended that students not purchase textbooks prior to 10 days before the class start date, as textbooks may change from previous classes. Textbooks are not returnable if shrink wrap is broken or disks are used or missing. All returned merchandise must be unaltered and in its original packaging. Bookstore hours: M–Th 8:00 a.m.– 5:00 p.m., F 8:00 a.m. – 3:00 p.m.; closed Sat/Sun and holidays.

The Continuing Education Unit (CEU) is used as the basic unit of measurement for an individual’s participation in CE non-credit classes, courses, and programs. CEUs will be awarded to individuals who successfully complete a course in occupational or academic program area. A CEU is a unit whereby then (10) contact hours equal one (1) CEU credit. To be eligible for CEU’s, a student must attend 75% of the course. Students will be mailed a Certificate of Completion indicating the number of CEUs earned. CEUs do not apply toward college degree requirements.

Should it become necessary to close the College because of inclement weather (storms, ice, snow, etc.), local radio, television stations and all social media outlets will be notified. Students should stay tuned to local stations, telephone the College at (910.455.1221), or consult Coastal’s website for more information relating to closings.

Continuing Education classes must have sufficient enrollment in order to run. Early registration for classes helps to guard against cancellation. In the event that a course is canceled due to low enrollment, inclement weather, etc., registered students will be notified by phone and/or email if classes are canceled.

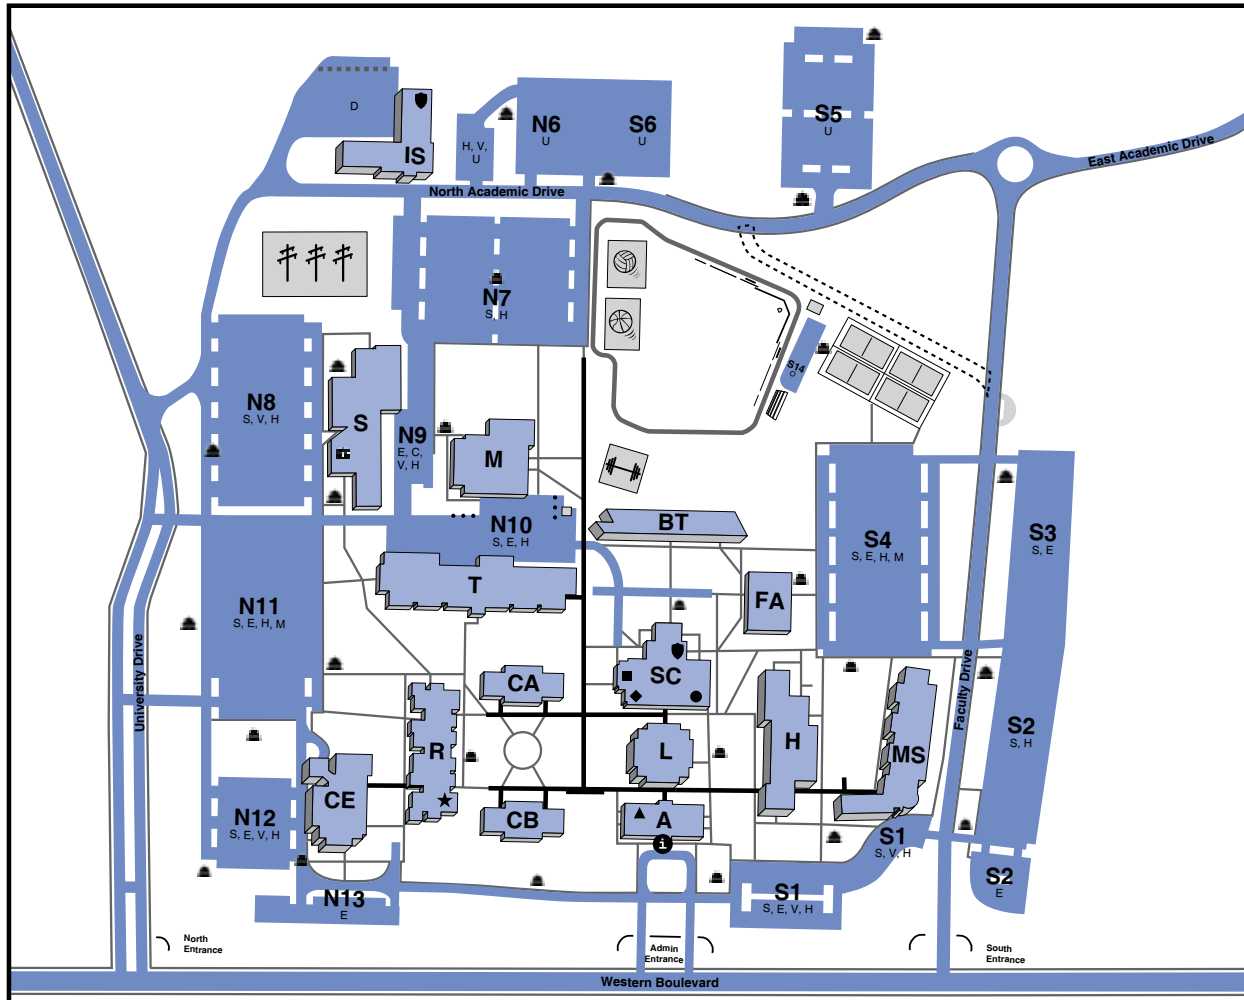

(1) A student who officially withdraws (in writing) from a class(es) prior to the first class meeting shall be eligible for a 100 percent refund. (2) A student who officially withdraws (in writing) after an occupational extension class has already begun shall be eligible for a 75 percent refund provided that the withdrawal is prior to or on the 10 percent date of the scheduled hours of the class. Note: This rule is applicable regardless of the number of times the class meets. (3) In the case of a contact-hour or online class, a 75 percent refund shall be made if the student officially withdraws (in writing) on or before the 10th calendar day from the first scheduled date of the class. (4) A student who officially withdraws (in writing) from a self-support class (Personal Enrichment, Motorcycle, Defensive Driving, etc.) prior to the first class meeting shall be eligible for a 100 percent refund. (5) A student is eligible for a 100 percent refund if an applicable class is canceled by the College. (6) For applicable classes, none of insurance fee is refundable once the class has started whether the student attended the first day of class or not.

## About Workforce Training and Continuing Education...

---

The Continuing Education Division at Coastal Carolina Community College plays an active role in the continuing education of the citizens of Onslow County. The Continuing Education Division provides courses that upgrade the occupational skills and knowledge of individuals at all levels of labor and management, offers services to small businesses, and develops programs to meet the training needs of new and expanding industries.

Programs are also provided to meet literacy needs, basic skill improvement, college and career readiness, and high school equivalency certification. Additionally, a broad range of course is offered enabling individuals to improve home and community life and develop or improve leisure time activities or practical skills. The division is divided into five primary areas of focus: Occupational Extension, College and Career Readiness, Center for Business and Industry Development, Human Services, and Community Service.

Please visit our on-campus office in the Kenneth B. Hurst Continuing Education Building (located at the corner of Western Boulevard and University Drive), call us at (910.938.6294), or email us at ([coned@coastalcarolina.edu](mailto:coned@coastalcarolina.edu)).

## HUMAN RESOURCE DEVELOPMENT /FINANCIAL AID

A variety of programs and services are available through the Human Services Department, which is located in Room 109 of the Kenneth B. Hurst Continuing Education Building. Classes are offered covering a variety of employability skill topics such as resume writing, goal setting and networking. These classes are offered free to those who qualify. Financial assistance is available for students who qualify. Funds may assist with tuition, books, tools, supplies, and childcare.

To inquire, please contact the Human Services Department or call (910) 938-6309.

<b>Employment Success: Resume Writing &amp; Interviewing</b>
Learn how to write a resume for the job you want! We will cover corporate and government resume formatting. Learn how to interview and put your best foot forward. Learn to manage your social media image for professional success. 12 Hours/\$71.00.
<b>Employment Success: Career Pathways &amp; Goal Setting</b>
Take multiple assessments to learn what career pathways fit your interests. We will conduct job reviews and analyze position descriptions in relation to experience and education required. Set measurable goals to gain education and employment. Learn to manage your social media image for professional success. 12 Hours/\$71.00.
<b>Career Pathways: Direct Care Worker</b>
This course will include skill development in home management and personal care tasks using limited assistance. Topics covered will include infection control, personal care, safety, professionalism, home management, effective communication, and job-keeping skills. 60 Hours/\$181.00.
<b>Employment Success: Public Speaking</b>
What's your biggest fear? For many people it's public speaking. This course will guide you through writing, along with giving speeches for personal and business use. We will discuss body language cues, knowing your audience, and organizing material for effective messaging while using humor and personality to make a connection. 12 Hours/ \$71.00.
<b>Career Pathways: Real Entrepreneurship</b>
Do you want to learn how to start your own business? Participants in this popular course will examine the development of a business idea, market analysis, and the components of a business plan. Completing a business plan and a pitch deck is the goal for graduates of this course. Students will gain knowledge from hands-on activities and from guest speakers who are successful business owners. Participants who meet the minimum attendance requirements and attend one 1-hour private counseling session with a Small Business Center Counselor will earn their REAL Entrepreneurship Certificate. The cost to participate in all eight sessions is just \$71.00. The class fee may be waived for those who are unemployed or under-employed. 24 Hours/ \$71.00.
<b>Employability Lab</b>
Need help with your resume or interview skills? Need guidance on your next career move, training, and financial assistance options? The Employability Lab is available on a walk-in basis. The Lab is located at the NC Works Career Center, 461 Western Blvd. #106, Jacksonville, NC 2854 (in the Food Lion Shopping Center on Western Blvd.) 24 Hours/ \$71.00.

WIOA is a federally-funded program for low income adults and dislocated workers enrolled or wishing to enroll in occupational training through Curriculum or Continuing Education. These funds may assist with registration fees, textbooks, tools, required supplies, and childcare.

Applicants must be 18 years or older and a US citizen or eligible non-citizen. To apply, students must complete a WIOA application, assessment tests, and provide eligibility verification.

## Other possible Sources of Assistance

- Golden LEAF Scholars Program
- SECU Foundation
- Short-Term Workforce Development Grant
- Governor's Emergency Education Relief (GEER) Scholarship
- Childcare Assistance
- Finish Line Grant

FINANCIAL AID  
Call (910) 938-6309 for more information.

## COLLEGE & CAREER READINESS

The College and Career Readiness (CCR) program is committed to providing opportunities for adults to improve their academic and workplace readiness skills. Through innovative, contextualized instruction and student supports, students can meet their education and career goals. Classes and labs are provided at no cost. Minors (16-17 years old) are required to complete a minor application form prior to admission to the program. To enroll in CCR, obtain a minor application form, or get information for placement testing, contact the Academic Studies Center at (910) 938-6259.

CCR is located in the Kenneth B. Hurst Continuing Education Building, Room 200. For more information, please call (910) 938-6259 or email [ccr@coastalcarolina.edu](mailto:ccr@coastalcarolina.edu).

All CCR classes are tuition-waived.

### HOW DO I REGISTER FOR THE COLLEGE AND CAREER READINESS PROGRAM?

To enroll in CCR, potential/interested students are required to register in the Academic Studies Center, located in Room 200 of the Kenneth B. Hurst Continuing Education Building, and take the TABE assessment.

### PLACEMENT TESTING INFORMATION

CASAS and TABE placement testing is available in the Academic Studies Center, located in the Kenneth B. Hurst Continuing Education Building, room 200. No appointment is necessary. Testing is free of charge.

#### Academic Studies Center

##### Testing Hours:

Monday – Thursday, 8:00 a.m. – 8:00 p.m.

Friday, 8:00 a.m. – 5:00 p.m.

Please allow at least 2 hours for testing.

No appointment is necessary.

Call (910) 938-6259 for more information.

## HIGH SCHOOL EQUIVALENCY (HSE) PREP

HSE is designed for students seeking a high school equivalency diploma. HSE provides instruction in reading, writing, math, science, and social studies, with a focus on employability skills and college readiness. Coastal Carolina Community College offers two options—the GED and the HiSET exam. Upon successfully completing one of these exams, students receive a North Carolina High School Equivalency diploma.

## ENGLISH LANGUAGE ACQUISITION (ELA)

ELA is a course designed for English language learners who desire to speak, read, and write the English language in order to get a job or go to college. Students develop college and career readiness skills, including technology, civics, and workplace skills through reading, writing, listening and speaking experiences.

## ADULT HIGH SCHOOL (AHS) DIPLOMA PROGRAM

A student may earn a North Carolina Adult High School Diploma by completing credits required by the state of North Carolina. An evaluation of recent transcripts by the AHS Coordinator will aid in determining AHS Diploma Program eligibility. Students can earn up to six credits through Coastal Carolina Community College.

## CAREER AND LIFE SKILLS

Career and Life Skills courses are designed for students who have an intellectual disability or those who need continued support in functional academics. It is ideal for students who graduated high school with an Occupational Course of Study diploma or a Certificate of Completion and want to achieve a higher level of independence by focusing on academic, vocational, and life skills.

## DIGITAL LITERACY

Digital Literacy classes are designed to provide students with the essential technology skills they will need in order to continue their education or begin a new career path. Computer Basics is designed to target fundamental skills such as using a keyboard and mouse, conducting Internet searches, and utilizing email. Computer Applications builds on the skills learned in Computer Basics, with instruction in word processing, spreadsheets, and multimedia presentation software.

## OCCUPATIONAL EXTENSION (OE)

Coastal Carolina Community College is an innovative and comprehensive college that advances the lifelong educational development of students consistent with their needs, interests, and abilities while strengthening the economic, social, and cultural life of its diverse population. Coastal answers the community’s job training needs by providing entry-level training, re-training, and upgrading for improving job performance. We offer non-credit courses in the following areas: Computer Training, Allied Health Occupations, Public Safety, Business & Office, Specialty courses (including Teacher Renewal and Foreign Language), Vocational & Trades, and Personal Enrichment. The occupational extension program offers standard, existing courses or develops courses designed especially for businesses, organizations, agencies, or industries. The following pages contain our course descriptions. Many courses lead to state and/or national certifications.

For the current schedule of offerings, see pages 26–27. For more information, please call (910) 938-9264, or email [coned@coastalcarolina.edu](mailto:coned@coastalcarolina.edu) or visit the main office in the Kenneth B. Hurst Continuing Education Building.

### Computer Training

Coastal recognizes the importance of computers and technology in today’s workplace. Whether you are new to computers, learning new software applications, or an experienced user seeking a certification, our Computer Training bridges the digital divide by offering opportunities to all members of the community. Certificate programs consist of multiple courses with the focus of providing proficiency in the subject area with excellent instructors and convenient times/locations. Many courses lead to national certifications such as CompTIA (A+, Security+ and Network+), Microsoft Office Specialist (MOS), Commercial Drone Pilot, Cisco (CCNA), and Project Management Professional (PMP).

GENERAL
<b>Computers for the Absolute Beginner</b>
Designed for the “true beginner”, this class is the first step to computer confidence. Students will learn the basic components of a computer (mouse, monitor, keyboard, etc.). In addition, hands-on experience will complement this so you will not only learn about computers, but also get to experience using them. 24 Hours/ \$71.00.
<b>Computer Basics II</b>
This course is designed to expand your PC knowledge beyond what you’ve learned in “Computers for the Absolute Beginner”. Students will learn the difference between the various Windows operating systems that are currently in use, understand basic PC maintenance, learn to use the Internet, and how to send emails and instant messages. Students will also gain more in-depth information on file and folder structure, software installation, customizing the look of the computer, and protecting the computer from viruses, malware, etc. 24 Hours/ \$71.00.
<b>Basic Computers Using Windows 11</b>
Windows 11 is Microsoft’s latest operating system. It is App, Touch Screen, and Cloud (OneDrive) oriented. You can use it with a mouse and keyboard or through touch screen. Created for cloud computing and mobility, Microsoft Windows 11 has many new features and functions that make this system easy to navigate once you learn how. This course is designed for those who have recently purchased a new computer, or are planning to. This class will teach you how to navigate the new Windows environment, use Microsoft Edge, and understand how Cortana can help you locate files and features you have used in the past. Tips, tricks, and shortcuts will also be provided. 24 Hours/ \$71.00.
<b>QuickBooks Desktop Pro 2021</b>
This course is designed to introduce students to the basic features and attributes of QuickBooks Desktop Pro 2021. Anyone with fundamental QuickBooks and accounting experience will find the information presented very useful. You will learn how to set up a QuickBooks company file, pay employees and vendors, create custom reports, reconcile your accounts, use estimating, time tracking, and much more. If you have been thinking about starting your own bookkeeping business, this course is for you. Requirements: Working knowledge of the Windows environment. 24 Hours/ \$71.00.

<b>Adobe Forms Designer Basics</b>
This class introduces and describes various techniques for using Adobe Forms Designer to create electronic forms that can complement, or supersede, other means of collecting and presenting enterprise data. After the completion of this course, Participants will gain a better understanding of the form layout process and be able to create interactive forms. Also, this course covers the Designer workspace, form objects, master pages, sub forms and tables, fonts and accessibility. The course first introduces the basics of form design. <u>Course Prerequisite:</u> The assumptions are that all attendees will have significant experience using Adobe Acrobat. 24 Hours/\$71.00
<b>Camtasia, Snag It, Captivate</b>
This exciting hands-on training course provides participants with the essentials needed to understand how to use a few eLearning tools to enhance the classroom learning experience. Those tools are: the all -in-one screen recorder and video editor (Camtasia), screen and image capture tool (SnagIt) and eLearning authoring tool (Captivate). Multimedia lecturers, teachers, training managers, instructional designers, trainers, instructors, e-Learning and content developers product managers and marketing and communication professionals would benefit from this course. 20 Hours/\$71.00
<b>MICROSOFT OFFICE</b>
<b>MS Access Database: Customizing Forms, Reports, Tables, and Action Queries (**A)</b>
This class is designed for students who want to learn Database Design, optimization, advanced form customization, and how to improve existing databases. The class specifically concentrates on specialized and advanced capabilities, such as working with improperly structured data (normalization), performing summary operations on data, and creating macros to automate tasks, enhance forms and reports, and using Access in other MS Office applications. Requirements: Students should have a solid understanding of MS Access or have completed the Database Design and Delivery course. 24 Hours/ \$71.00.
<b>Create Animated Infographics Using Office 365 PowerPoint (**P)</b>
With PowerPoint you can easily create a visually convincing info-graphic. Learn how to use info graphics to graphically represent information quickly and clearly. In this course students will learn how to select the right elements for your infographic, including how to import graphics. Learn how to design and create your own scalable shapes and custom graphics within PowerPoint, work with PowerPoint icons, and add format text boxes and charts. 12 Hours/ \$71.00.
<b>Office 365 Boot Camp Level I (**W, E, O, P)</b>
This course is designed to help users get started with the collaborative cloud-based Office 365 environment. Learn to navigate and identify the components for the Office 365 environment, create, edit, share, and collaborate documents with team members using Word Online, Excel Online, PowerPoint Online, and Outlook. By the end of this course, participants will be able to: navigate within Office 365, work within Outlook app, and use the enhanced features of all the Office apps including Word, Excel, Outlook, and PowerPoint. 24 Hours/ \$71.00.
<b>Office 365 Level II (Intermediate) (**W, E, O, P)</b>
This intermediate level Office 365 class is designed for students who want to expand their skills and knowledge to become proficient using the advanced features and functions of Office 365 (Word online, Excel online, PowerPoint online, and Outlook). This is a training class with practical exercises included. Requirements: Successfully completed the Office 365 Boot Camp courses or equivalent knowledges. 24 Hours/ \$71.00.
<b>Access Database: Switchboards, Advanced Queries and Form Design</b>
Now that you understand the basic of Microsoft Access, this course will expand your knowledge on basic database management skills, such as creating advance queries, switchboards, and designing forms and reports. In this course, you will expand your knowledge of relational database design; develop techniques to improve database efficiency and promote data integrity; and implement advanced features in tables, queries, forms, and reports. This class is help students prepare for the Microsoft Office Specialist (MOS) exam. 24 Hours/\$71.00
<b>Collaborating Using Microsoft Teams, SharePoint and One Drive</b>
This course will bolster participants to maximize their understanding and use of Microsoft Teams. From basic Microsoft Teams tips to more advanced features, users will explore Teams design, functionality, tips & tricks. Transform your Teams from a modest communication platform to a wide-ranging collaboration environment. From how to manage conversations, breakout rooms, maintain files, to how MS Teams relates to the other Office 365 apps. This course is beneficial for any organization that is utilizing Microsoft Teams. 24 Hours /\$71.00

<b>Office 365: Excel Introduction - Intermediate (**e)</b>
This Introduction to Intermediate Excel course begins by explaining the basics of efficiently working with the Excel workbook. Students will continue to gain concepts in worksheet navigation, formatting, and entering formulas. Emphasis is placed on charting, working with page/print layouts, intermediate functions and formulas, creating data ranges, and working with Excel tables. 24 Hours/ \$71.00.
<b>Office 365 Excel: Introduction to Data Analysis Tools (**E)</b>
This course introduces students to numerous Excel functions used to organize and query data. Participants will progress to intermediate level topics in MS Excel such as building charts, pivot tables, working with multiple worksheets, and using functions such as IF, VLOOKUP, HLOOKUP, and Count IF. Finally, students will learn how to automate tasks in Excel using macros. Upon completion, students will know how to perform data analysis using various line and bar graphs, scatter plots and histograms, and have the ability to summarize data. Requirements: Successfully completed Excel Introduction or equivalent knowelde. 24 Hours/ \$71.00.
<b>Office 365 Excel: Data Analysis Tools, Pivot Tables, and Cloud Collaboration (**E)</b>
This Advanced Microsoft Excel Training class is designed for students to gain the skills necessary to use Pivot Tables, audit and analyze worksheet data, use data tools, collaborate with others, and create and manage macros. This is not a class for beginning Excel users. Requirements: Students should have solid understanding of Microsoft Excel. 24 Hours/ \$71.00.
<b>Office 365 Excel Tips, Tricks, and Shortcuts (**E)</b>
This class will provide valuable time-saving tips, tricks, and shortcuts that will help you get the most from Excel. This quick-paced course will hold touch on most of the popular Excel features and how to use them efficiently. Recommend students taking this course will have had some formal training in Excel. 24 Hours/ \$71.00.
<b>Office 365 Word,Excel, Powerpoint, and OneNote (**w, e, p)</b>
Discover how to use the main Office 365 applications: Word, Excel, PowerPoint, and OneNote. In this course students will learn how to create documents using Microsoft Word, work with data using Excel spreadsheets, prepare animated presentations using PowerPoint, and organizing notes using OneNote. 24 Hours/\$71.00.
<b>Collaborating with Microsoft Teams</b>
This course will maximize participants understanding and use of Microsoft Teams. From basic tips to more advanced features, users will explore Teams design, functionality, tips, and tricks. Transform your Teams from a modest communication platform to a wide-ranging collaboration environment. From how to manage conversations, breakout rooms, maintain files, to how MS Teams relates to the other Office 365 apps. 24 Hours/ \$71.00.
<b>Data Visualization Using Office 365 Excel</b>
Data visualization is becoming an increasingly important skills, especially in the “big data” workplace. Discover how to visualiza Excel data that provides a clear idea of what the information means by giving it visual context through maps, charts or graphs. In this course, students will learn how to effectively present key information in a way that can be quickly consumed and acted upon. Excel can connect to a wide range of data sources, perform robust data analysis and create diverse and robust data-backed visualizations to show insights, trends, and create reports. Requirements: Students should have an understanding of basic charts and familiarity with Microsoft Excel.24 Hours/\$71.00.
<b>Introduction to Power BI</b>
This course teaches participants how to navigate the MS Power BI software and to use this tool to create useful visualizations of datasets. Data Visualization is the graphical depiction of datasets using items such as bar charts, line graphs, scatterplots, etc. Students will discover how to present data that allow your audience to quickly understand, derive insights, or see trends from the data. Requirements: An understanding of bar charts, line graphs, etc. Familiarity with MS Office applications, particularly Excel. 24 Hours/\$71.00.

<b>IT CERTIFICATION TRAINING</b>
<b>COMPTIA A+ Certification Exam Prep (220-1101) Hybrid - Part I (New)</b>
<p>Our CompTIA A+ Certification Prep (hybrid) course combines both instructor-led and online learning to help students build their existing user-level knowledge and experience with personal computers (PCs). This 220-1101 course will cover mobile devices, networking, hardware, virtualization, cloud computing, and hardware/network troubleshooting. CompTIA A+ is compliant with ISO 17024 standards and is approved by Department of Defense Information Security to meet Directive 8140.01 requirements. Requirements: Students must have basic computer user skills and be interested in obtaining a job as an entry-level IT technician. 60 Hours/\$181.00.</p>
<b>COMPTIA A+ Certification Exam (220-1102) Hybrid - Part II (New)</b>
<p>This course will build on your existing user-level knowledge and experience with personal computer (PC) software and operating systems. Acquire the essential skills needed to install, configure, optimize, troubleshoot, upgrade, secure, and perform preventive maintenance on PC and digital device operating systems (OS). Students will explore Windows, MAC and Linux. Students will also explore Microsoft command line tools and security and troubleshooting objectives for desktop, mobile, and wireless systems as well as operational procedures. Requirements: This course is for users who have basic computer user skills and who are interested in obtaining a job as an entry-level IT technician. 60 Hours/\$181.00.</p>
<b>COMPTIA Security + Certification Exam Prep (SY0-601)</b>
<p>Security threats are occurring with more frequency and the demand for Information Security professionals is increasing. One of the more popular security certifications is the vendor-neutral CompTIA Security+ certification. Government employees working in the Information Technology and Computer Security fields are expected to complete the Security+ exam in order to stay compliant with the DoD 8140.01 policy. This training will help you understand the field of network security and how it relates to other areas of information technology while preparing you to pass the current CompTIA Security+ exam. This course covers a broad review of information security, including network attacks, PKI, intrusion detection, cryptography, and disaster recovery. Upon completion, students should be prepared to complete the CompTIA Security+ SY0-601 exam. Requirements: Basic knowledge of computer/network security along with a working knowledge of computers. Or have completed the COMPTIA A+ or Network + courses. 50 Hours/\$126.00.</p>
<b>CompTIA Network+ and Security+ Exam Prep Boot Camp (NEW)</b>
<p>This class is designed to help prepare students for the Network + and Security + certification exams. During this course of study key security issues and procedures in computer and mobile communication networks will be examined. Among the issues to be discussed are: the security of LANs, WANs, databases, and network operating systems; threats to computer networks through exploitation of network infrastructure design weaknesses; security flaws in the network infrastructure protocols; security of content in computer network services; risk assessment and security policies; and security in mobile communication networks. Other topics include: network intrusion detection and forensics technologies, cryptographic and authentication systems, capability and access control mechanisms, and Internet routing and transport protocols. Requirements: CompTIA A+ or equivalent knowledge. 180 Hours/\$186.00.</p>

<p><b>CompTIA Network+ Certification Exam Prep (n10-008)</b></p> <p>This course provides network technicians and support staff with the foundation level skills needed to install, operate, manage, maintain, and troubleshoot a network. Students will receive 96 hours of training on network protocols and standards, media and topologies, network implementation, and network support. Requirements: CompTIA A+ or equivalent knowledge. 96 Hours/\$186.00.</p>
<p><b>Cisco CCNA 200-301 Certification Exam Prep Part I</b></p> <p>This Cisco course is designed to help students understand the 29 chapters in Volume I of the Cisco CCNA 200-301 certification guide. The course will test a candidate's knowledge and skills associated with network fundamentals, IP connectivity, network access, IP services, security fundamentals, automation, and programmability. The exam prep also provides foundational knowledge for all support technicians involved in the basic installation, operation, and verification of Cisco networks. Requirements: Any student taking this course should have basic knowledge of networking, computer hardware and software basics, router and switching knowledge from work experience or other courses. More experience and/or coursework will help you chances to pass the CCNA exam. 60 Hours/ \$181.00.</p>
<p><b>Cisco CCNA 200-301 Certification Exam Prep Part II</b></p> <p>This Cisco course is designed to help students understand the 20 chapters in Volume II of the Cisco CCNA 200-301 certification guide. The course will test a candidate's knowledge and skills associated with network fundamentals, IP connectivity, network access, IP services, security fundamentals, automation, and programmability. The exam prep also provides foundational knowledge for all support technicians involved in the basic installation, operation, and verification of Cisco networks. Requirements: Any student taking this course should have basic knowledge of networking, computer hardware and software basics, router and switching knowledge from work experience or other courses. More experience and/or coursework will help you chances to pass the CCNA exam. 60 Hours/ \$181.00.</p>
<p><b>Project Management (PMP) Certification Exam Prep Course</b></p> <p>This course is designed to prepare the student for the new PMP certification examination with a rigorous review of Project Managements best practices that include guidance of those knowledge and experience areas required. To achieve PMP certification, each candidate must satisfy all educational and experiential requirements established by PMI, and must demonstrate an acceptable level of understanding and knowledge about project management that is tested by the Project Management Professional Certification Examination. This course will examine the special nature of projects – concepts, definitions and approaches. Critical to mastering the PMI methodology is a clear understanding of the Project Management domains. Requirements: A four-year degree (bachelor's or the global equivalent) and minimum 4,500 hours of experience leading and directing projects OR a secondary diploma (high school or the global equivalent) and minimum 7,500 hours of experience leading and directing projects. 51 Hours/\$181.00.</p>
<p style="text-align: center;"><b>WEB DESIGN, MULTIMEDIA, AND DIGITAL PHOTOGRAPHY</b></p>
<p><b>SharePoint Tools: Power Automate, Power BI, Power Apps, and Project</b></p> <p>This course introduces SharePoint administrators to various tools that can be used to help connect and organize dynamic sites and pages to better meet the needs of their organization. Power Automate is a cloud-based tool that allows users to create and automate workflows across multiple applications and services. Power BI is used to import and transform data for visualization purposes, Power Apps consists of apps, connectors, and services to build custom apps. Project allows the use to organize project-related work and tasks easily. This course is designed for SharePoint site managers, and SP site administrators. Requirements: Student should have a solid understanding of SharePoint. 24 Hours. \$71.00</p>
<p><b>SharePoint Online Power Users and Site Administrators Course</b></p> <p>This course is designed for SharePoint users who have experience with a previous version of SharePoint and are assigned to perform as site administrators, site managers, or have extended skill sets. As a result of this training, users will be able to create and manage a SharePoint site, create and manage site content, lists, and libraries, and optimize the Office integration capabilities of SharePoint online. Users will manage content approval, site permission governance, metadata, and social networking capabilities. Requirements: Working knowledge with a previous version of SharePoint of completion of the SharePoint End-User course. 24 Hours/\$71.00.</p>

<b>SharePoint Online for the Office 365 End-User</b>
This instructor-led SharePoint for Office 365 End User Training class is for end users and site owners new to working in a SharePoint environment in Office 365. The course teaches SharePoint basics such as working with lists and libraries, basic page customization, and working with forms. 24 Hours/\$71.00.
<b>SharePoint Online Advanced (Part II) Practicum Course</b>
This course follows up on knowledge learned in the SharePoint Power Users/Site Managers course. Students will design, develop, and implement either their organizational site(s) or a site collection built from instructor-provided materials. Students are encouraged to bring relevant organizational files and information to facilitate building their sites. The goal of the class is to leave with the design and infrastructure of their site/site collection in place. Students will have access to CAC card readers if needed. Requirements: Participants must have attended the Power Users/Site Managers course or demonstrate the abilities and skill-sets required to build site collections. 24 Hours/ \$71.00.
<b>Introduction to Video Editing with DaVinci</b>
Students will learn how to dramatically improve the quality and impact of their video content using the free and powerful tools in the DaVinci Resolve software. Course objective is to teach students how to collect , assemble, and optimize audio/video footage. The course takes students through targeted skills using practice content or their own files to create professional looking videos. Requirements: Students are required to bring their laptop with DaVinci software installed. 24 Hours/\$71.00.
<b>Commercial Drone License Exam Prep</b>
The course will provide the student with the information they will need to successfully pass both the Federal and North Carolina's drone knowledge tests. When you pass the knowledge tests you can apply for a commercial drone license (FAA) and operators permit (NC). These tests cover a wide range of aeronautical topics, acronyms, rules, map reading, weather reports, crew management, and scenario-based situations. This class is designed for people without pilot training. The class does not include any flight time with a drone. Requirements: Recommend students can read, write, and understand the English language and be proficient in basic math skills. 24 Hours/\$71.00.
<b>Digital Photography Operations I</b>
This introduction, intermediate level digital photography course, will help guide students to a higher understanding of how digital cameras work and demonstrate how to take advantage of new digital camera capabilities. This fun, yet challenging, class is designed to give students confidence with their camera. Learn to control resolution, exposure, shutter speed, depth of field, ISO, creative modes and operational settings. Bring your camera and its manual to class. Requirements: Bring your camera and its manual to class. 24 Hours/\$71.00.
<b>Digital Photography Operations II</b>
This advanced digital photography course will help guide the student to a higher understanding of how to make digital cameras work for you. The class will use lectures, combined with hands on practice to build camera skills and understanding of their camera. During the course, students will explore techniques, including taking images in specific ways and using Photoshop elements to extract the data into higher quality images. Students will learn to better control and understand critical camera parameters. Students in this class will develop data for their own camera systems that will show its specific strengths and weaknesses, and how to maximize image quality. Some of the areas covered will be how to expand resolution through use of photo stitch techniques, expanding dynamic range using HRD photography, finding your lens's "sweet spot", shooting on manual, shooting in "raw" format, focus stacking, etc. Requirements: Students must have successfully completed Digital Photography Operations I class. Operational experience in Photoshop Elements or Photoshop CC is required. Bring your camera and its manual to class. 24 Hours/\$71.00.
<b>Digital Photography Concepts I</b>
This course will help you better understand how to take higher impact photos. The student will learn specific and actionable techniques/tips to improve their images. Photographic concepts covered will include basic camera settings composition, using focus, colors, light and its many aspects, using motion, and student requested modules. Class includes fun and creative homework assignments and in-class evaluations of each student's homework results. Some photography experience is beneficial but no specific type of camera is necessary. Requirements: Bring your camera to class. 24 Hours/\$71.00.

<b>Digital Photography Concepts II</b>
This advanced digital photography course is designed to show students how to take amazing images by honing their visualization skills, managing light, unleashing creativity, enhancing emotional impact, and generally improving their craft. This class has been recently revised to include a blend of lectures, short videos, discussion groups, hands-on skills practice, and image critiques. Students will learn to blend compositional guidelines with an artistic approach to build stunning images. Requirements: Moderate computer skills and completion of Digital Photography Concepts I. Bring your camera to class. 24 Hours/\$71.00.
<b>Create Amazing Images Using Lightroom and Photoshop</b>
This course covers identification of common digital image issues and provides students with the concepts and skills needed to apply basic “fixes”, using Adobe CC Lightroom and Photoshop CC. 24 Hours/\$71.00.
<b>Immersive Digital Photography</b>
This fun and intensive photography workshop seeks to help significantly improve our student’s digital images. During the 4 week/twice a week classes; we will explore some critical camera operational settings, along with compositional techniques students can use to improve image impact. Creative homework assignments will be given to allow skills practice, and then each student selects 6 – 10 images that will be submitted for in-class review. Requirements: Student must have access to a digital camera (or digital cellphone camera) and know how to download and copy selected images to a thumb drive (32GB or larger). 24 Hours/\$71.00.

## Business and Professional Development

For students who need skills and knowledge to enter a new field, enhance skills in a current field to become certified, or want to build professional development skills to be more effective in the workplace and at home.

<b>Notary Public</b>
This course is designed to provide certification as required by North Carolina General Assembly, Chapter 10B. After passing our course, students will be required to send an application form and \$50 fee to the state. Upon approval, students will take an oath at the county courthouse and pay a \$10 fee for the official appointment certificate. Requirements: Students must show a North Carolina photo ID with signature at first class meeting. Textbook. 7 Hours/\$71.00.
<b>E-Notary Certification</b>
This course is designed to provide Commissioned Notary’s Public with the information, training, and procedures to become an approved North Carolina Electronic Notary. All course material and topics will be taught per the North Carolina General Assembly, Chapter 10B. To be eligible to take this course, students must be a current North Carolina Commissioned Notary Public. Requirements: Must be a current Notary Public. Textbook. 3 Hours/\$71.00.
<b>ASVAB PREP</b>
<b>Armed Forces Career Pathway</b>
Do you want to join the military, but you’re intimidated by the ASVAB test? Have you already taken the ASVAB, and you want to improve your score? This course is designed to help individuals who are preparing to take the military entrance examination (ASVAB) to enter one of the U.S. Military branches. As a student in this course, you will receive instruction in foundational education topics such as reading comprehension, mathematics, and applied science in a contextualized format which can help you to increase your AFQT score on the military entrance exam. This course is not for individuals already serving in the military. Coordination with a local military recruiter is NOT required. Requirements: TABE placement testing required. 84 Hours/ tuition waived. Contact the College & Career Readiness Office at 910-938-6259 for more information and future class dates.

## LEAN SIX SIGMA

### Lean Six Sigma Yellow Belt

This foundational course introduces Lean and Six Sigma principles and tools that lead to effective process improvement. Students practice through a Lean simulation and use the Six Sigma methodology to analyze and improve a problematic case study. Successful completion of the course earns students Lean Six Sigma Yellow Belt certification. 16 Hours/\$71.00.

### Lean Six Sigma Green Belt Hybrid

Learn essential skills needed to lead successful process improvement projects including process analysis, value stream mapping, root cause analysis, and process improvement strategies. This highly interactive training uses a team approach to evaluate an inefficient process and then design, implement, and evaluate quantifiable process improvements using the valuable Six Sigma method, DMAIC. Training includes advanced lean practices, theory of constraints, and statistical analysis using MS Excel. Students will earn LSS Green Belt Certification from Coastal Carolina Community College upon successful completion of course work, written exam, and a tollgate project by the last day of class. Requirements: Yellow Belt course. Laptop computer equipped with MS Excel and PowerPoint software. SigmaXL V9.1 Software (\$80). 96 hours/ \$186.00.

### IASSC Green Belt Exam Prep

Prepare to earn international Green Belt certification by receiving online Green Belt instruction each week over the course of 4 months in this exceptional, economically-priced course. This class covers the body of knowledge included in the International Association of Six Sigma Certification (IASSC) Green Belt exam. Successful completion of class will be reflected permanently on a student transcript. Additionally, any student who chooses to separately pay IASSC and passes their \$295 Green Belt exam will earn internationally-recognized Green Belt certification and boost their employability across all fields. Mastery of course material will enable students to be highly productive members of Green Belt continuous process improvement (CPI) projects using the DMAIC method (Define, Measure, Analyze, Improve, and Control). Requirements: Textbook (\$121). SigmaXL V9.1 Software (\$80). 132 Hours/\$186.00.

### Lean Six Sigma Black Belt

Participants will build upon their current knowledge of Lean Six Sigma principles by conducting a Black Belt-level improvement project utilizing the Define, Measure, Analyze, Improve and Control (DMAIC) improvement methodology. Students will focus on improving an existing process by reducing cost, eliminating waste, and improving quality. Additionally, the course incorporates instruction on how to manage improvement teams, sustain process improvement goals, and function as an organizational change agent. Students will also receive instruction on how to use popular analytical software programs that can be used in the future to perform advanced statistical analysis. Students will receive a Coastal Carolina Community College LSS Black Belt Certification upon successful completion of the final exam. Requirements: Green Belt 40 hours. \*\*Laptop computer equipped with MS Excel and PowerPoint software. \*\*Working Student Guide on LSS Black Belt (College Store) \*\*SigmaXL V9.1 Software (\$80), LSS Black Belt Manual (\$300). 145 Hours/\$186.00.

## COOKING AND CULINARY

### ServSafe

ServSafe is a nationally-accredited course that provides those that work in a food service organization rules for safe food handling, storage, temperatures, self-inspections and other food-service related topics. Requirements: Students must have current edition of textbook with an exam answer sheet. 14 Hours/ \$71.00.

<b>TEACHER RENEWAL CREDIT</b>
Coastal's teacher renewal credit programs support re-certification and professional development according to the state and national standards. Teachers are afforded the opportunity to update their skills, enhance their knowledge to become a more effective classroom teacher and learn the latest technology.
<b>Advanced Digital Design for Instructors and Educators (ADDIE)</b>
Today, schools are more dedicated than ever to incorporate the use of technology into every aspect of learning. In this course, participants will discover straightforward digital design techniques that will guide the viewer's eye and enhance comprehension. The effective use of digital design and multimedia is behind every good learning environment. This project-based course is designed for Educators and Facilitators to help develop learning solutions that integrate digital tools and content that engage and connect learners in new and exciting ways. 24 Hours/\$71.00.
<b>Teaching Smarter with SmartBoards</b>
In this class, you'll discover how to create outstanding presentations with SMART Board and SMART Notebook technology. You'll explore the basics of using these tools and discover how to create your own SMART board lessons blending text, videos, and graphics. You'll also go beyond bells and whistles and look at specific ways to use SMART technology to broaden your content and make your lessons accessible to all students. Offered monthly via Ed2Go. Requirements: Must enroll on the Ed2Go website at <a href="http://www.ed2go.com/ccc2go">http://www.ed2go.com/ccc2go</a> . 24 Hours \$71.00.
<b>Evolving Technology Trends for the K-12 Virtual Classroom</b>
The future of K-12 education requires teachers to embrace the use of digital technology. This course will help K-12 educators evaluate and implement technology using the right blend of tools, platforms, and components within the virtual classroom setting. Participants will discover the possibilities and challenges of using emerging technology in fully online environments, although many of the ideas covered in this course can be applied to blended and traditional environments as well. 20 Hours/\$71.00.
<b>Office 365: Apps for Education - Part I</b>
Take your knowledge to the next level! In this course, participants will learn best practices, and tips on how to become more innovative with the Office 365 cloud-based tools (regardless of the device used) such as Microsoft Teams, Delve, Sway, OneNote, Forms, Flow, and One Drive. MS Teams is the key communication tool used to bring all of the content, apps, and conversation together. With MS Forms, you can create surveys and quizzes. Sway is the app used to create interactive web-based lessons, assignments, and projects right from the tablet, phone, or browser. 20 Hours/\$71.00.
<b>Digital Resources for Educators</b>
Did you know that educators have a wealth of digital resources to facilitate and/or enhance remote teaching, classroom management, student motivation, and engagement, among other things? Did you know that there are tools already in your toolset that may be used in a different manner than designed but which are infinitely helpful? This class is for you if you do not have time to spend searching out tools that can help you save time and effort. Each week we will cover different aspects of some of the myriad of digital resources available to educators at little or no cost. 20 Hours/\$71.00.
<b>Gamification Apps for Use in the Classroom</b>
Learn resourceful ways to use games in the classroom to get your students working, thinking, laughing, and ENGAGING. In this course, participants will learn techniques and tools to integrate gamification into your classroom. Gamification strategies not only increase students motivation, but maximize interaction with the content. Discover user-friendly ways to incorporate game design elements into not only the content, but into classroom routines as well. 20 Hours/\$71.00.

## Allied Health - Medical Office

Courses are scheduled to help fill employment needs of health agencies in the community. Online and traditional seated classes are held for a variety of health and medical office professions, including Nurse Aide, Phlebotomy, Pharmacy Technician, Cardiovascular Technician, Massage Therapy, Medical Coding and Billing, and Certified Medical Administrative Assistant (CMAA). Most courses lead to state and/or national certifications. Successful students will be eligible for jobs in nursing homes, hospitals, pharmacies, laboratories, doctors' offices, and other related agencies. National certifications will also allow transient members of our community to depart with portable occupational skills. For more information, please call (910) 938-9264 or email [coned@coastalcarolina.edu](mailto:coned@coastalcarolina.edu).

### Nurse Aide I

Learn how to provide personal care and perform basic nursing skills. Students will complete class, laboratory, and clinical learning experiences. Upon satisfactory completion of NA I training, graduates are eligible to take the National Nurse Aide Assessment Program (NNAAP) exam (exam fee: \$140). Upon achieving a passing grade on the exam, graduates will be listed as an NA I by the Division of Health Service Regulation (DHSR). Requirements: Must be at least 17 years of age to register. CASAS reading test score of 239 required or high school diploma or equivalent. (See CASAS Information page 8). Documentation of all required immunizations must be completed by the first day of class. You will order your Background check and Drug Screen the first week of class. Be prepared to pay for this! (approximately \$100). Textbook. A current card from the American Heart Association (or Red Cross) is required to or you will need to sign up for a BLS class at the time of registration. 162 Hours/\$207.00.

### Nurse Aide II

Learn to perform more complex skills for patients and residents. After successful completion of the course, the student is eligible to test for placement on the North Carolina Nurse Aide II Registry. Requirements: Copy of H.S. Diploma or equivalent, current CPR card (AHA BLS for Healthcare Providers), and proof of listing as an NA I on the NC Registry must be presented at time of registration. Documentation of all required immunizations must be completed by the first day of class. You will order your Background check and Drug Screen the first week of class. Be prepared to pay for this! (approximately \$100). Textbook. 175 Hours/\$207.00.

<p><b>Nurse Aide I Refresher</b></p> <p>This course reviews the knowledge and skills in basic nursing care to prepare students to take the National Nurse Aide I Assessment Program (NNAAP) exam. After successful completion of the class the student will sign up to take the state exam. After passing the skills and written/oral competency evaluation, the graduate is listed as a Nurse Aide I on the NC Registry. Requirements: Applicants must have completed an approved NA training course of at least 75 hours -OR- be currently registered as NA I in another state -OR- have an expired NA I registry listing within the last 4 years (any State) -OR- have status as a Hospital Corpsman (or similar military training in any branch). Textbook. 40 Hours/\$126.00.</p>
<p><b>Medication Aide</b></p> <p>Prepare to pass the state Medication Aide competency exam and become listed on the NC Medication Aide Registry. Medication Aides are qualified to administer medication in long term care facilities. Requirements: H.S. Diploma or equivalent required. *CASAS test required (Reading: 239) (See CASAS Information on page 5) Current listing on the N.C. Nurse Aide I Registry required. Textbook. 24 Hours/\$71.00.</p>
<p><b>Cardiovascular Technician</b></p> <p>This program prepares students to become certified EKG technicians/monitor techs. The course will cover anatomy and physiology of the heart, principles of EKG, and recognition of multiple cardiac dysrhythmias. Students will learn cardiac terminology and medical disease processes. The medical and legal aspects of patient contact will be covered. Skills include operating EKG equipment, running EKG's, mounting strips, and the reading and interpreting of cardiac tracings. 24 hours of online work during the 12 weeks of class. Requirements: CASAS test required (Reading: 254 or proof of college courses (transcript) in lieu of CASAS test). (See CASAS information on page 8) H.S. Diploma or equivalent required to take the national exam. Textbook. 108 Hours/\$191.00.</p>
<p><b>Central Sterile Processing</b></p> <p>This online course introduces students to the primary responsibilities of a central sterile processing technician. Their tasks are to process and sterilize equipment and supplies from the operating suites and nursing units of the hospital. These medical professionals are specially trained in the proper care, cleaning, decontamination, and sterilization of all surgical instrumentation. The central sterile processing technician plays an essential role in patient safety and infection control. Requirements: Copy of H.S. Diploma or equivalent <u>and</u> the *CASAS test required (Reading: 249) or college transcript in lieu of CASAS test. (See CASAS information on page 8). Textbook. 96 Hours/\$191.00.</p>
<p><b>Pharmacy Technician</b></p> <p>Train to be a Pharmacy Technician in this class taught by an NC Pharmacist. Upon completion of this course, students will be prepared to take the PTCB National Certification Exam. Both seated and online classes are offered. Seated class includes online assignments. Requirements: CASAS placement testing is required for seated courses (Reading: 249, Math: 236) OR proof of college courses (See CASAS Information on page 8). Textbooks. 198-202.5 Hours/\$191.00.</p>
<p><b>Phlebotomy Training</b></p> <p>During this 12-week course, students learn to draw blood specimens from patients for the purpose of testing and analysis. Six weeks of evening classroom/lab training are followed by six weeks of daytime clinical experience. Also includes online homework. Requirements: CASAS placement testing is required (Reading: 254) OR proof of college courses (See CASAS Information on page 8). CPR certification. Documentation of all required immunizations must be completed by the first day of class. You will order your Background check and Drug Screen the first week of class. Be prepared to pay for this! Mandatory orientation is held online approximately 1 week prior to start date where additional requirements and costs will be detailed. Textbook. 256 Hours/\$207.00.</p>

<b>Ophthalmic Assistant I &amp; II</b>
<p>The Ophthalmic Assistant Program is based on the standards outlined by the International Council of Accreditation and by the International Joint Commission on Allied Health Personnel in Ophthalmology (IJCAHPO). It is designed for people seeking to start a career as an Ophthalmic Assistant. Students will learn clinical tasks such as initial patient assessment, ophthalmic procedures and surgery preparation, various vision tests, equipment and record maintenance, and customer service. It will cover the basic skills required to complete the preliminary eye exam and the many instruments available that facilitate the determination of refractive errors of the eye, the detection of muscular imbalance, and the magnification and visualization of the interior structures of the eye. This course will cover ophthalmic skills and instruments, their purpose and mode of use, and their advantages and limitations. Twice a week, students will attend three hours of lecture/lab, complete online assignments, and train 16 hours at assigned ophthalmology sites during the day. Upon successful completion, students will have the knowledge and skills necessary to take the IJCAHPO national Certified Ophthalmic Assistant (COA) exam and work in the Ophthalmology and/or Optometry field. Requirements: HS or Higher Education transcript and CASAS reading score of 248 and math score of 239. Textbooks (est. cost \$350) 700 Hours/\$410.00.</p>
<b>Ophthalmic Assistant Exam Prep</b>
<p>The Ophthalmic Assistant program is based on the standards outlined by the International Council Accreditation and by International Joint Commission on Allied Health Personnel in Ophthalmology (IJCAHPO). It is designed for staff currently working with an Ophthalmologist who wish to obtain an international credential as a Certified Ophthalmic Assistant (COA). Twice a week, students will attend three hours of lecture/lab at night, and complete online assignments. Upon successful completion, students will have the knowledge and skills necessary to take the IJCAHPO's Certified Ophthalmic Assistant national certification exam. Requirements: HS equivalent or higher education transcript and minimum CASAS testing scores of 248-reading/ 239-math. Textbooks (est. cost \$350). 260 Hours/\$191.00.</p>
<b>Massage Therapy &amp; Massage Therapy Clinic</b>
<p>This 734-hour Massage Therapy Program is designed to provide students with the essential skills to become a licensed massage therapist in North Carolina. The program focuses on anatomy, physiology, and muscle movement while providing a strong foundation in the technical skills required to perform basic therapeutic massage. Requirements: Students <b>MUST</b> attend orientation prior to registering. CASAS placement testing required with reading score of 244 (See CASAS information on page 8). Proof of high school or equivalent. Placement test waived with official proof of Associates degree or higher. Textbooks. 734 Hours/\$393.00.</p>
<b>Certified Personal Trainer (NASM)</b>
<p>Learn the fundamentals of the personal training profession and begin an exciting career as a health and fitness trainer. This course will prepare students to pass the National Academy of Sports Medicine exam while understand the basic principles of Concepts and Structures of Anatomy, Principles of Human Movement Science, Exercise Technique and Training Instruction, Nutrition, and Program Design. Professional Development, Business Practice and Responsibilities will be discussed. This program includes classroom work and practical applications. 232 Hours/\$607.00.</p>

**NEW for 2024!**

Beginning in January 2024, we will be adding a daytime option for our Phlebotomy course.

- Daytime option – First six weeks will be Mon - Thu, 9:00 am – 1:00 pm
- Evening option – First six weeks will be Mon - Thu, 4:00 pm – 8:00 pm

The second 6 weeks for all courses is a clinical rotation. Students will be assigned either a morning or afternoon rotation.

**THESE COURSES WILL BE AVAILABLE FOR REGISTRATION SOON.**

## MEDICAL OFFICE

### Medical Terminology

Students will study the structure of medical words and terms. Emphasis is placed on spelling and defining commonly used prefixes, suffixes, root words, their combining forms, and body organization. Program content covers the basic human anatomy and physiology for all systems; laboratory medicine, pharmacology, elements of medical terms, and names of major diseases, including terms used in physical exams, operative procedures, and diagnosis. An introduction to basic anatomy and physiology is included with an emphasis on the relationship between body structure and function and the procedures common to health care. Upon completion, students should be able to identify body system components and functions relating this knowledge to the delivery of health care. Both seated and online classes are offered. Requirements: Textbook. Reliable internet service for online course. For the online class, attendance is required for the one evening live online session every week. 96 Hours/\$191.00.

### Medical Coding Specialist

Educational Partners with American Academy of Professional Coders (AAPC). Students in this class will prepare for the American Academy of Professional Coders national Certified Professional Coders examination. The class includes modules of Basic Medical Coding, Medical Insurance, Advanced Medical Coding, and National Certification Preparation. Both seated and online classes are offered. Requirements: Medical Terminology within four years or pass free Medical Terminology Assessment with 80%. H.S. Transcript or equivalent required. Textbooks. Reliable internet service for online course. For the online class, attendance is required for the one evening live online session every week. 318 Hours/\$191.00.

### Medical Billing Specialist

This course will present an in-depth study of healthcare claims and billing collections procedures, various types of insurance carriers, medical necessity, insurance denials and the appeals process. The course provides the most up-to-date information to ensure the correct procedure for billing insurance claims for physician services. Upon successful completion, the student will be prepared for the American Academy of Professional Coders – Certified Professional Biller (CPB) national examination. Both seated and online classes are offered. Required: Medical Coding Specialist. Textbook. Reliable internet service for online course. For the online class, attendance is required for the one evening live online session every week. 180 Hours/\$191.00.

### Certified Medical Administrative Assistant (CMAA) Online

Prepare for national certification as a Certified Medical Administrative Assistant (CMAA). This class is designed to give students an opportunity to learn the skills and earn certification to work in a physician's office. Topics include medical terminology, communication skills, administrative duties, and office and financial procedures. Requirements: Textbook. Proof of HS or equivalent. Reliable internet service. 150 Hours/\$191.00.

### Dental Office Administrative Assistant

The Dental Office Administrative Assistant Program is designed to prepare the student for entry-level positions as a dental office administrative assistant. An experienced dental professional will deliver instruction on the fundamentals of running the front office at a dental practice. The course covers topics such as: Dental terminology, anatomy & physiology; dental professionals' roles and responsibilities; infection control and disease transmission; Professional Communication, Telephone Etiquette, and Ethics; patient record management and charting; dental appointment management; overview of business management procedures to include an introduction to insurance terms; plus other topics pertinent to the dental profession. Requirements: Textbook, High School or College transcript. 130 Hours/\$191.00.

## Public Safety

Emergency services (EMT and Paramedic training) courses are designed to meet both the pre-service and in-service training needs of the emergency medical community. Courses are scheduled to fulfill the needs of rescue squads, fire departments, and EMS agencies. Basic telecommunications and emergency medical dispatch are also regularly scheduled. Career and volunteer fire and rescue personnel are provided with the opportunity to gain technical knowledge and skills needed for the effective performance of their duties. In addition to classroom theory, the firefighter has the opportunity to apply firefighting techniques during practical exercises. Training sessions may be held on the College campus or at local fire departments where in-service classes are provided throughout the county.

<b>Law Enforcement</b>
Contact Paul Buchanan at 910.938.6368 or e-mail <a href="mailto:buchananp@coastalcarolina.edu">buchananp@coastalcarolina.edu</a> for information.
<b>Fire and Rescue</b>
Certification courses for fire and rescue personnel are offered year-round. A six-month nighttime Fire Academy is offered twice each year. A six-month daytime Fire Service Academy (which includes Fire and EMT certification possibilities) is also offered twice a year. The application periods for the Coastal Carolina Fire Academy can vary. Please contact Jim Rardin at 910-938-6228, or email <a href="mailto:firerescue@coastalcarolina.edu">firerescue@coastalcarolina.edu</a> for information.
<b>EMT/ Paramedic/EMD/Telecommunicators</b>
For Emergency Medical Technician, Emergency Medical Dispatch or Emergency Telecommunicator information please contact Beth Himes at 910.938.6127 or <a href="mailto:himesb@coastalcarolina.edu">himesb@coastalcarolina.edu</a> . For Paramedic please contact Troy Stauter at 910.938.6161 or <a href="mailto:stautert@coastalcarolina.edu">stautert@coastalcarolina.edu</a> .
<b>Emergency Medical Technician - Initial</b>
Successful completion of course allows students to take the North Carolina or National EMT certification exam. The EMT course will include a driving component and 48 hours of required clinical time offered at various scheduled times. Requirements: Textbook. Proof of H.S. Diploma or equivalent OR a take a reading placement test scoring at the 11th grade level OR turn 17 years old by the end of the course AND take a reading placement test scoring at the 11th grade level AND a valid/current Driver's License or permit. For testing information, contact Beth Himes at <a href="mailto:himesb@coastalcarolina.edu">himesb@coastalcarolina.edu</a> . Clinical sites require a criminal background check /drug screen prior to attending (estimated cost of \$137). Vaccinations are also required before attending clinical. Beginning January 1, 2023, a valid BLS card from the American Heart Association will be required to register. 288 Hours/\$202.00.

<p><b>EMT Initial - Corpsman to EMT</b></p> <p>Successful completion of course allows students to take the North Carolina or National EMT certification exam. For more information, contact Beth Himes at <a href="mailto:himesb@coastalcarolina.edu">himesb@coastalcarolina.edu</a>. Requirements: Textbook. Proof of H.S. Diploma or equivalent OR a take a reading placement test scoring at the 11th grade level, Joint Services Transcript showing Hospital Corpsman training, Proof of current ARC or AHA CPR certification, Letter of Verification of 10 patient assessments within 3 months of the course start date from the student's command, and a valid/current Driver's License or permit or provide verification of having completed an emergency vehicle operators course (CEVO, EVD,VFIS). 94 Hours/\$207.00.</p>
<p><b>Emergency Medical Dispatch</b></p> <p>This course is designed to prepare students to perform the functions of an Emergency Medical Dispatcher (EMD) using the Medical Priority Dispatch System. Through lecture, demonstration, and hands-on practice, this class will cover all the aspects of the job of EMD. Upon successful completion of this class, the student will be qualified to test for credentialing as an Emergency Medical Dispatcher. For testing information, contact Beth Himes at <a href="mailto:himesb@coastalcarolina.edu">himesb@coastalcarolina.edu</a>. Requirements: HS Diploma (or equivalency) OR take a reading placement test scoring at a 10th grade level. Student must create a profile with Priority Dispatch, register, and pay the associated fee at least two weeks prior to the start of class. Textbook. 24 Hours/\$71.00.</p>
<p><b>Advanced EMT</b></p> <p>This course is a blended course intended to educate currently certified EMT's to the Advanced EMT level. This course introduces advanced emergency medical care. Topics include pathophysiology, pharmacology, advanced airway, advanced patient assessment, cardiovascular emergencies, basic arrhythmias and trauma emergencies. This course follows North Carolina Office of EMS standards and the National EMS Education standards. Requirements: All students must be approved for registration by Beth Himes, 910-938-6127. 264 Hours/\$207.00.</p>
<p><b>Emergency Telecommunicator</b></p> <p>This course is designed to focus on developing the essential knowledge and skills required to function as an Emergency Telecommunicator. The course includes lecture with practical application as well as visiting an actual Public Safety Telecommunications Center. Completion of these courses leads to national certification. Requirements: Textbook. Must be 18 years old and have H.S. Diploma or equivalency. \$191.00.</p>
<p><b>EMS Officer I</b></p> <p>Successful completion of course allows students to take the North Carolina or National EMT certification exam. The EMT course will include a driving component and 48 hours of required clinical time offered at various scheduled times. Requirements: Please contact Beth Himes for future dates. 40 hours. \$126.00.</p>
<p><b>Pre-Hospital Trauma Life Support</b></p> <p>Pre-hospital Trauma Life Support (PHTLS) is an NAEMT course. It is recognized around the world as the leading continuing education program for pre-hospital emergency trauma care. The mission of PHTLS is "to promote excellence in trauma patient management by all providers involved in the delivery of pre-hospital care". PHTLS is appropriate for EMTs, paramedics, nurses, physician assistants, physicians, and other pre-hospital providers. PHTLS is accredited by CAPCE and recognized by NREMT. Requirements: Students must pre-register for this course. A \$15.00 student card fee is also required at time of registration. Card fee is not subject to fee waiver for exempt students. Textbook - Pre-Hospital Trauma Life Support - through NAEMT or Amazon. 16 Hours/\$71.00.</p>
<p><b>Geriatric Emergency Medicine (GEMS)</b></p> <p>An NAEMT course that provides EMS practitioners at all levels with the skills and knowledge to address the unique medical, social, environmental and communications challenges of older adults. Developed by NAEMT, in partnership with the American Geriatrics Society, GEMS empowers EMS practitioners to help improve medical outcomes and quality of life for geriatric patients. Requirements: Textbook - Geriatric Emergency Medicine. ISBN: 978-1449641917. Through NAEMT or Amazon. 8 Hours/\$71.00.</p>

The American Heart Association strongly promotes knowledge and proficiency in all AHA courses and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the AHA. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to the AHA.

<b>All Hazards Disaster Response (AHDR)</b>
An NAEMT course that teaches students how to respond to the many types of disaster scenarios they may encounter, including natural disasters and infrastructure failings, fires and radiological events, pandemics, active shooter incidents, and other mass casualty events. AHDR educates participants on how to analyze potential threats in their area, assess available resources, and create a response plan that will save lives. Requirements: Textbook - All Hazards Disaster Response. ISBN: 978-1-284-04104-0 through NAEMT or Amazon. 8 Hours/\$71.00.
<b>Principles of Ethics and Personal Leadership (PEPL)</b>
An NAEMT course that provides EMS and Mobile Healthcare (MHC) practitioners at all levels with the necessary knowledge and skills to effectively interact with patients and their families, other medical personnel, co-workers, supervisors and community residents at large. Requirements: Textbook - Principles of Ethics and Personal Leadership. ISBN: 978-1-284-04257-3 through NAEMT or Amazon. 16 Hours/\$71.00.
<b>Advanced Medical Life Support</b>
An NAEMT course that remains the gold standard of education for emergency medical assessment and treatment. Endorsed by the National Association of EMS Physicians, AMLS emphasizes the use of the AMLS Assessment Pathway, a systematic tool for assessing and managing common medical conditions with urgent accuracy. Requirements: Textbook - Advanced Medical Life Support. ISBN: 978-1284040920 through NAEMT or Amazon. 16 Hours/\$71.00.
<b>Psychological Trauma in EMS Patients (PTEP)</b>
An NAEMT course that educates EMS practitioners about the biological underpinnings of psychological trauma, the short and long-term impact on the brain and body, and warning signs that a patient is experiencing extreme psychological distress. EMS practitioners are also taught strategies and techniques to alleviate patients' distress and help patients cope with what they're experiencing to ward off lingering effects. Requirements: Textbook - All Hazards Disaster Response. ISBN: 978-1-284-04104-0 through NAEMT or Amazon. 8 Hours/\$71.00.
<b>Advanced Cardiac Life Support (ACLS)</b>
This course provides physicians, nurses and paramedics as well as other health care providers with instruction on skills to enable them to provide advanced management of the cardiac patient. Requirements: Please contact Beth Himes for future dates. 16 Hours/\$71.00.
<b>Advanced Cardiac Life Support (ACLS) Renewal</b>
This is a one day course for ACLS recertification. Requirements: Please contact Beth Himes for future dates. 8 Hours/\$71.00.
<b>Basic Life Support (BLS) For Healthcare Providers (AHA)</b>
Intended for participants who provide health care. Taught in accordance with AHA guidelines, this class provides training in CPR skills for all ages using AEDs and how to relieve foreign-body airway obstructions. Requirements: Textbook. 6 Hours/\$71.00.
<b>Heartcode BLS Skills</b>
This is a 2-hour skills only session of the AHA Heartcode BLS Healthcare Provider ONLINE course. Requirements: Registrants MUST complete the online portion and provide a copy of the completion certificate upon registration and to the instructor on the first day of class to take this course. 2 Hours/\$16.00.

Welding To Work II	10/30/23	12/1/23	M-F	7:30AM - 4:30PM	\$181.00	WLS-NA	

If you do not see dates listed for the class you would like to take,  
please call (910) 938-6294 to have your name added to an interest list.

## CAREER CENTER

The career center offers the opportunity to work closely with trained and experienced staff for one-on-one job coaching. Clients have access to a wealth of employment information including the local job market, local job postings, current hiring practices, and interviewing techniques. Clients are encouraged to take a career assessment and work with a career counselor to ensure they take full advantage of their skills and abilities, empowering them to take control of their career development.

Other services provided include:

- Career exploration-Employability work shops
- Résumé/cover letter critique
- Local job posting-Mock interviews
- Social media networking
- Career counseling

The Career Center is located in the Student Center Building, Room 31.  
Open Monday – Friday, 8:30 a.m. – 4:30 p.m.

**910.938.6373**

[careerservices@coastalcarolina.edu](mailto:careerservices@coastalcarolina.edu)

## Trades and Technical

Skills and Trades training is offered in a wide variety of areas such as general contracting, marine engine, environmental science, maintenance and repair, powerline technician (VA Approved), truck driver training (VA Approved), welding, code enforcement, gunsmithing, and veterinary science. Many of these programs are pre-certification classes. Theory is augmented with multiple hours of hands-on training to assist students in obtaining increased confidence, knowledge, and proficiency in these topics.

FACILITIES MAINTENANCE
<b>Electrical Wiring Fundamentals</b>
This course provides an overview of electrical wiring techniques and is suitable for students with no prior knowledge of electrical theory or installation. Emphasis will be placed on the design and installation of residential electrical systems. 48 Hours/\$181.00.
<b>Plumbing Fundamentals</b>
Learn plumbing fundamentals and skills as applied to the home building trade. Course topics will include the proper use of tools and equipment, workplace safety, and related topics. 36 Hours/\$126.00.
<b>EPA Refrigeration Certification</b>
EPA regulations require that anyone who handles refrigerants must obtain certification. This class provides the training and testing required for certification. (This does NOT certify automotive technicians). 15 Hours/\$71.00.
<b>Construction Basics</b>
Get started in a high demand job with competitive wages in less than two months! This 6-week course will equip you with the skills you need to begin a career in the Construction field. You will learn Residential Electrical Wiring, Introduction to Masonry Fundamentals and Plumbing Fundamentals in a hands-on environment. You will also be trained on Construction Estimation as well as Blueprint Reading in order to give you an advantage on job sites. This course will take students through the process of planning, estimating, building, wiring, and plumbing a structure. Certifications include: OSHA 30 Construction, Powered Industrial Truck (PIT), Workzone Safety, AHA Heartsaver. Requirements: Textbook. 232 Hours/\$258.00.
WELDING
<b>Basic Welding SMAW</b>
This class introduces the principles and techniques of shielded metal arc welding (SMAW) known as (stick welding). Emphasis is placed on padding, fillets, and groove welding in various positions on 3/16" to 3/4" carbon steel. Requirements: Tools. Proper PPE. Textbook. 96 - 120 hours/\$191.00.

<b>Pipe Fitting &amp; Welding</b>
This class provides instruction on how to properly prepare, cut, and fit pipe sections together per blue prints, take-offs, and job specifications. Welding positions include 1G, 2G, 5G, and 6G using SMAW process with an introduction to GTAW for root and hot passes according to AWS Standards. Students will learn pipe welding fundamentals which include proper fit-up, joint preparation, tacking, and electrode selection in vertical uphill welding. Students will have the opportunity to gain their AWS Welding Certification in SMAW of Carbon Steel for E6010 (Vertical Uphill) followed by E7018 (Vertical Uphill) pipe applications. Requirements: Tools. Basic Welding or permission of the instructor. 201 Hours/\$191.00.
<b>MIG Welding I &amp; II</b>
The course is designed to prepare the student for intermediate-level occupations within the welding, manufacturing, fabrication, and construction industries. This course develops the student's flux-cored arc welding (FCAW), GMAW, and GMAW Spray transfer techniques. Topics include equipment troubleshooting, performing welds in all positions using FCAW, GMAW, GMAW-S, and basic fabrication techniques. Additionally, this course introduces welding diverse materials, including carbon steel, aluminum, and stainless steel. Upon successful completion of the course, students will have the knowledge to safely employ FCAW, GMAW, GMAW-S equipment, conduct weld tests, interpret blueprints and codes, fabricate using structural steel materials, and have the knowledge to sit for a wide range of industry-specific weld certifications. Requirements: Tools. Proper PPE. Textbook. 156 Hours/\$191.00.
<b>GTAW (TIG) Welding</b>
This course introduces the student to Gas Tungsten Arc Welding (TIG) techniques, principles, methods and practices. The course prepares the student for entry-level occupations within the welding, manufacturing and construction industries. Topics include equipment set-up and performing welds in all positions for GTAW on carbon steel plate, stainless steel, and aluminum. Upon successful completion of the course, students will have the knowledge to safely employ GTAW equipment, conduct weld tests, interpret blueprints and codes, and have the knowledge to sit for various industry specific welding certifications. Requirements: Successfully completed a Basic Welding class such as oxy-fuel gas cutting (OFC), shielded metal arc welding (SMAW), and gas metal arc welding (GMAW) or permission of instructor. 96 Hours/\$191.00.
<b>Welding to Work, Parts 1 and 2</b>
The Welding to Work training program is an accelerated 14-week course designed to provide students with entry to advanced knowledge needed to start a career in Gas Metal Arc Welding (GMAW). In addition, students will be provided the opportunity to earn certifications in OSHA 10hr, Forklift Operator License and AWS Certification. This course provides a combination of In-class and On-the-Job Training with local partners to include Gulfstream Steel and Supply, and Waterline Systems. Requirements: Students must complete Part 1 prior to enrolling in Part 2. \$191.00 EA.
<b>GENERAL CONTRACTOR</b>
<b>General Contractor Exam Prep</b>
Prepare for the general contractors exam. This course places emphasis on the residential builder and also explains pertinent information relating to the building trades for both commercial and residential general contractors. Requirements: North Carolina and Building Code textbook required. 66 Hours/\$181.00.

<p><b>Code Qualification</b></p> <p>Individuals seeking to become certified as building, fire, electrical, mechanical and plumbing code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Certificates are issued by the Board in building, electrical, fire prevention, mechanical, and plumbing. Each category is further subdivided into: Level I, II, and III. Requirements: Code books are required for all classes. For required textbooks and more information, visit <a href="http://www.ncdoi.com">www.ncdoi.com</a> "OSFM" &gt; "Codes" &gt; "Code Book Sales" section.</p>
<p><b>Law &amp; Administration</b></p> <p>This class will give firefighters/students an overview of the NC building regulation system and is designed for the education and training of building, electrical, mechanical, plumbing, and fire prevention code enforcement. Topics within this course include the structure of federal, state, and local governments, the history of the NC State Building Code, relevant General Statutes, and enforcement responsibilities of local inspection departments. This class is a state requirement and pre-requisite for firefighters to qualify to take the NC State Fire Prevention Inspector Level I Certification Test. Requirements: For required textbooks and more information, visit <a href="http://www.ncdoi.com">www.ncdoi.com</a> "OSFM" &gt; "Codes" &gt; "Code Book Sales" section. 15 Hours/\$71.00.</p>
<p><b>Building Standard Inspection - Level I</b></p> <p>For individuals seeking to become certified as building code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit <a href="http://www.ncdoi.com">www.ncdoi.com</a> "OSFM" &gt; "Codes" &gt; "Code Book Sales" section. 46 Hours/\$126.00.</p>
<p><b>Building Standard Inspection - Level II</b></p> <p>For individuals seeking to become certified as building code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit <a href="http://www.ncdoi.com">www.ncdoi.com</a> "OSFM" &gt; "Codes" &gt; "Code Book Sales" section. 40 Hours/\$126.00.</p>
<p><b>Building Standard Inspection - Level III</b></p> <p>For individuals seeking to become certified as building code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit <a href="http://www.ncdoi.com">www.ncdoi.com</a> "OSFM" &gt; "Codes" &gt; "Code Book Sales" section. 40 Hours/\$126.00.</p>
<p><b>Electrical Standard Inspection - Level I</b></p> <p>For individuals seeking to become certified as electrical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit <a href="http://www.ncdoi.com">www.ncdoi.com</a> "OSFM" &gt; "Codes" &gt; "Code Book Sales" section. 42 Hours/\$126.00.</p>
<p><b>Electrical Standard Inspection - Level II</b></p> <p>For individuals seeking to become certified as electrical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit <a href="http://www.ncdoi.com">www.ncdoi.com</a> "OSFM" &gt; "Codes" &gt; "Code Book Sales" section. 30 Hours/\$126.00.</p>

<b>ENVIRONMENTAL SCIENCE</b>
<b>Wastewater Treatment Plant Operator I &amp; II</b>
This course follows prescribed training to meet certification requirements of the North Carolina Water Pollution Control System Operators Certification Commission. Graduates of this course will be eligible to take the state exam for Grades I and II. 72 hours/\$181.00.
<b>MAINTENANCE AND REPAIR</b>
<b>NC Auto Safety Inspection</b>
This course prepares auto technicians and service personnel as safety inspectors for motor vehicles. The state examination will be given. 8 Hours/\$71.00.
<b>TRUCK DRIVING (CDL)</b>
<b>Truck Driving Training (CDL)</b>
Begin a new and exciting career! This 7-week program offers professional training in all areas required to succeed in the transportation industry. Course content is delivered via classroom and practical application methods. Gain hands-on expertise and experience with vehicle inspections, logbooks, trip planning, and rules and regulations that pertain to industry standards. Students will train daily by completing driving exercises on selected routes as well as practice labs for backing maneuvers; all focused on successful preparation for and completion of NCDOT CDL licensing. Requirements: CDL Class A Permit, valid NC Driver's License, copy of driving record. 272 Hours/\$905.00.
<b>CDL Permit Prep Course</b>
This online course is designed to help prepare students for the NC DMV Class A Permit test. Possessing a NC DMV permit is a prerequisite to enroll in Coastal's Truck Driver Training Course. Classroom instruction and practical application are arranged to increase students' general knowledge of the NCDMV Driver's manual, give specific recommendations on what test areas and topics to study, and provide helpful hints to increase confidence and reduce test anxiety. Requirements: Valid Driver's License. CDL Students needs to bring a NCDMV CDL Handbook with them to class (free at local Licensing office, or download from the NCDMV web-site). 280 Hours/\$71.00.

## Disability Accommodations

If you have a disability and wish to request some accommodation, contact the Admissions Office at (910) 938-6394 and ask for the Request for Accommodation Form. If accommodation is not requested sufficiently in advance to provide the college adequate time to meet your needs, we cannot guarantee the availability of a reasonable accommodation when you need it.

## POWERLINE

### Powerline Technician I and II

This 14-week program provides individuals with the necessary skills for employment in various electrical utility industries. Course topics will focus on the fundamentals of line construction to include overhead and underground line work, vehicle set-up and operation, transformer wiring and configuration, meter applications, and safe work practices. Student safety and teamwork will be emphasized throughout the course, along with other rules and regulations applicable to the industry. Requirements: 18 years of age, weight restrictions are limited to 275 lbs., DOT physical and drug test, DMV driving history, Valid NC Driver License (must be provided at time of registration). 504 Hours/\$422.00.

### Arborist Trainee

This 8-week program prepares individuals with the necessary skills for employment in various tree industries. Course topics will focus on fundamentals of vegetation management to include: tree identification, appropriate pruning and trimming techniques, rigging and tree felling, and the safe use and operation of equipment. Student safety and teamwork will be emphasized throughout the course along with other rules and regulations applicable to the industry. Requirements: Must be 18 years or older to enroll, DOT physical and drug test, DMV driving history, Valid NC Driver License (must be provided at time at registration). 280 Hours/\$241.00.

## VETERINARY OFFICE ASSISTANT

Becoming a Veterinary Office Assistant is a rewarding career in a growing field. As a Veterinary Office Assistant you can work with animals, be part of a professional veterinary staff, nature center, wildlife center, or animal sanctuary. This program is comprised of the following: **CORE classes:** Veterinary Assisting, Small Animal Care and Management, Reptile Care and Management; **INTERNSHIP classes:** Zoological Internship. **ELECTIVE classes:** Animal Agriculture, Wildlife Rehabilitation, Avian Care, Exotic Animal Medicine; **OPTIONAL recommended classes:** Introduction to Veterinary Assistance. Students completing (3) Core Classes, (1) Internship Class, and (2) Elective Classes (in any order) will be awarded the Veterinary Office Assistant Certification of Achievement. Each course integrates knowledge and skills related to customer service and administrative fundamentals within the learning environment.

### Introduction to Veterinary Assisting

Have you thought about working in the animal care field and don't know where to start? The Introduction to Veterinary Assistance course is the right choice for you! Students will be introduced to the various roles and career options that involve caring for domestic animals. Office practices, animal behavior and safe handling, medical terminology, anatomy, pharmacology and more are explored and discussed. Requirements: Textbook. 48 Hours/\$126.00.

<b>Veterinary Assisting</b>
Learn how to interact with animals and their owners, obtain animal health histories and records, understand veterinary medical terminology, recognize the major breeds of various animals, assist the veterinarian with caring for animals, assist with surgical and treatment procedures, recognize signs and symptoms of illness and disease, and perform administrative duties in the veterinarian office. Requirements: Textbook. 144 Hours/\$191.00.
<b>Small Animal Care and Management</b>
Prepare for an entry-level position as a professional animal care technician. Course topics will include basic small animal anatomy, animal safety, handling/controlling small animals, parasite recognition, animal first aid, and skin disorders. Requirements: Textbook. 48 Hours/\$126.00.
<b>Reptile Care and Management</b>
Reptile Care and Management is an introductory course designed to teach students the basics of herpetology and their captive care. Topics will include anatomy, reproduction, handling and safety, nutrition, diagnosis and treatment of illnesses, hematology, common diseases, etc. The course will also cover proper husbandry of captive species as well as identification of common pets and species native to North Carolina. 48 hours/\$126.00.
<b>Wildlife Rehabilitation</b>
The Wildlife Rehab course is designed to assist the student in preparation for both entry-level and advanced level intern positions in nature centers, wildlife centers, and animal sanctuaries. Focus will be on the care of orphaned and injured small mammals of North Carolina. Course topics will include advanced topics such as bandaging, splinting, wound management, physical therapy, euthanasia, and necropsy. Requirements: Transportation required. NWRA Wildlife Formulary, 4th Edition. 24 Hours/\$71.00.
<b>Zoological Internship</b>
This internship is an intensive opportunity involving hands on experience with mammal, avian, and reptile species. Discussions of animal behavior, nutrition, restraint, safety, enrichment, and husbandry will be just some of the topics covered. Interns will gain hands on experience dealing with various aspects of animal husbandry, public education, and park maintenance. Requirements: Transportation required. Must be 18 years old and have a record of current tetanus vaccination. 115 Hours/\$191.00.
<b>Animal Agriculture</b>
This 8-week course will acquaint students with the basic knowledge and skills of working with various small-scale hobby farm animals such as cattle, equines, goats, sheep, llama, alpaca, pigs, and poultry. Topics will include animal selection, husbandry, nutrition, and illnesses. 24 Hours/\$71.00.
<b>Avian Care</b>
Expand your knowledge with Avian Care. This class is designed to prepare the avian enthusiast and those looking into specialty-based careers. Birds are unique to our animal world and therefore require an extended level of understanding. This course will cover anatomy, physiology, nutritional needs, zoonosis, common ailments, husbandry and proper restraint. Please join us for this 8-week introductory/intermediate course to better understand the avian species. Requirements: Textbook. 24 Hours/\$71.00.
<b>Exotic Animal Medicine</b>
This course is designed to teach and familiarize students with the fundamentals of working with exotic animals. Topics will include anatomy and physiology, parasite recognition, diseases and treatments, safety, vaccinations, restraints and euthanasia. Requirements: Textbook. 24 Hours/\$71.00.

## Personal Enrichment

Personal enrichment classes reflect the needs and interests of the citizens of Onslow County. These classes provide new avenues for personal development, skills training, cultural enrichment, and lifelong learning. Course offerings may include art, crafts, cooking, upholstery, sewing, and music.

<b>Sewing Skills – Multi-Level</b>
This fun, go-at-your-own pace sewing skill class will show students the joy and benefits of sewing their own projects. Basic sewing skills and techniques will be demonstrated and individualized level-specific techniques will be provided as requested. The course will focus on individuals' sewing projects, regardless of sewing skill level. \$50.00.
<b>Intro to Upholstery</b>
Basic upholstery class that will introduce the steps to upholster or re-upholster one to two pieces of furniture. An experienced interior designer will teach students the necessary skills and techniques to upholster or re-upholster basic furniture pieces through demonstration and hands-on application. Students will learn how to select the proper fabric and notions to create a customized piece of furniture and complete basic upholstery project(s) in class. Sewing skills are not necessary. Requirements: Students need to be able to transport their project furniture to and from campus every class, as storage is not available. Recommended project is a chair seat. 24 Hours/\$50.00.
<b>Upholstery II</b>
Upholstery II will demonstrate the steps to upholster or re-upholster one complex piece of furniture. An experienced interior designer will teach students the necessary skills and techniques to upholster or re-upholster a selected piece of furniture through demonstration and hands-on application. Students will learn how to select the proper fabric and notions to create a customized piece of furniture and complete an upholstered project in class. Sewing skills are not necessary. Students need to be able to transport their project furniture to and from campus every class, as storage is not available. \$50.00.
<b>Sew in Time for the Holidays</b>
This class will focus on sewing projects with a holiday flair and/or projects to give as gifts. Some of the projects will be pillows, Christmas stockings, aprons, and pajama bottoms for the whole family just in time for holiday pictures! Requirements: Students need to bring and know how to operate their portable sewing machines. Basic sewing skills are required. Supply list provided at the time of registration. \$50.00.
<b>Voice</b>
This course provides group instruction in skills and techniques of the particular instrument or voice for those with little or no previous experience. Emphasis is placed on techniques and styles. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. Includes one live performance. 30 Hours/\$70.00.

## Driving Safety

No fee exemptions for classes in this section. If for any reason a student cannot successfully complete the class, he or she will need to register again at their own expense.

<b>Alive @ 25 (4-Hour)</b>
This course is designed to teach defensive driving techniques to students ages 16 to 25 with a traffic citation. For traffic offenders, permission must be obtained from the District Attorney's Office in Onslow, Duplin, or Sampson Counties in order to attend. This course is also open to the public for self-improvement. 4 Hours/\$55.00.
<b>Defensive Driving (4-Hour)</b>
This 4-hour course is offered in conjunction with the District Attorney's Office in Onslow, Duplin, or Sampson Counties. Anyone receiving a moving traffic citation that did not result in an accident may be eligible to take the course. Upon successful completion of the course, a moving violation may be submitted to DMV as a non-moving violation. The course is also open to the public for self-improvement. 4 Hour/\$55.00.
<b>Attitudinal Dynamics (8-Hour)</b>
This course is offered once monthly on Saturdays only. It is an 8-hour defensive driving course offered for repeat offenders, or for excessive speed offenders. For traffic offenders, permission must be obtained from the District Attorney's Office in Onslow, Duplin, or Sampson Counties in order to attend. 8 Hours/\$105.00.
<b>Motorcycle Safety - Basic Rider Course</b>
The BRC is designed for beginning riders of all ages. Graduates will receive an MSF completion card that may qualify them for an insurance discount and a NCDMV waiver card for the riding skill portion of their NCDMV test. 18 Hours/\$156.00.

By increasing vehicle speed  
 from 55 MPH to 65 MPH,  
 stopping distance increases  
 by over 25 percent.

## INDUSTRY TRAINING

In cooperation with the North Carolina Community College System (NCCCS), the Industry Training Center (ITC) will design a customized training curriculum to meet individual company needs under the State's Customized Training Program. Industries that qualify for this free training include manufacturing, technology intensive, regional or national warehousing and distribution centers, customer support centers, air courier services, national headquarters with operations outside North Carolina, and civil service employees providing technical support to US military installations located in North Carolina. Eligible businesses and industries must demonstrate two or more of the following criteria: the business is making an appreciable capital investment; the business is deploying new technology; the business is creating jobs, expanding an existing workforce or enhancing the productivity and profitability of the operations within the State; and the skills of the workers will be enhanced by the assistance. Training may be conducted at the company's site by College faculty, third-party contracted resources, or by subject matter experts within the company. To learn more about how the Industry Training Center can support your training needs, contact Steve Gill at (910) 938-6303/6302 or [gills@coastalcarolina.edu](mailto:gills@coastalcarolina.edu).

<b>Powered Industrial Trucks (Forklift)</b>
This course is designed to meet the regulatory standard and provide training for current and new operators of forklifts. The course includes an operator evaluation. Requirements: Attendance for all hours is required. 6 Hours/\$71.00.
<b>OSHA 10-Hour—Construction</b>
This course is designed for individuals who need an overview of how to use the standard and how the standards apply to the construction industry. The course includes a written exam. A certificate of completion is awarded through OSHA to all students who complete the course. Requirements: Attendance for all hours is required. 10 Hours/\$71.00.
<b>OSHA 30-Hour—Construction</b>
This course is designed for individuals who need an overview of OSHA standards and their application to the construction industry. The course includes a written exam. A certificate of completion is awarded through OSHA to all students who complete the course. Requirements: Attendance for all hours is required. 30 Hours/\$134.00.
<b>Construction Quality Management</b>
Construction Quality Management Training (CQM) is a required course by both the Army Corp of Engineers (COE) and the Naval Facilities Engineering Command (NAVFAC). Upon Successful completion of this class, a Certificate of Completion is awarded. Re-certification is required every 5 years. Coastal Carolina Community College's standard registration refund policy does not apply to this class and a waiver of fees is not permitted. Once a student is registered for this course, the registration fee is nonrefundable and nontransferable unless the course is cancelled by the college. Requirements: Attendance for all hours is required. 9 Hours/\$301.00.

## ADMISSIONS INFORMATION FOR DEGREE PROGRAMS & COLLEGE TRANSFER COURSES

Admissions Office Hours: Monday – Thursday, 8:00am – 7:30pm • Friday, 8:00am – 5:00pm

Admissions 910.938.6332 or 910.938.6394

Financial Aid 910.938.6332

### Admissions Process

1. Complete an application for admission. Visit [www.coastalcarolina.edu](http://www.coastalcarolina.edu) for an admissions application – click on Applying Online. Your application will be submitted electronically. In order to take advantage of early registration opportunities, new students should begin the admissions process as soon as possible.
2. Submit official high school transcript (or GED®/Adult High School) and all transcripts from any schools attended after high school.
3. Meet with an academic counselor to plan your program of study and assist in scheduling your classes.
